Ms. April Rosales Jumadla, Rpm, CHRA
Director
Career and Job Placement Services Office
USTP-CDO

Subject: Request for OJT Students and Partner Company Data

Dear Ms. Jumadla,

Greetings of peace and good health po!

We are BS Information Technology students from the University of Science and Technology of Southern Philippines (USTP), currently working on our research about developing an OJT system. This system will automate the OJT enrollment process, and one feature we would like to add is student and company matching using machine learning

In line with this, we would like to respectfully request access to available data of students who were enrolled in OJT, such as the companies they applied to, their skills, and their course, as well as information about partner industries or companies. This data will help us better understand the current OJT process and support the development of our proposed system, including its machine learning features.

Also, we would like to ask if there are specific problems you are currently facing regarding the OJT process so that we can include it in our features.

We assure you that all collected information will be used strictly for academic purposes only and will be handled with confidentiality in accordance with data privacy policies. Proper acknowledgment of your office will also be observed.

We are hoping for your kind support and guidance regarding this request. Thank you very much for your time and consideration. We look forward to your favorable response.

God bless you po.

Respectfully,
Fernandez, Harry
Inidal, Faisal
Lopez, Maikent George C.
Naive, Varren Meg
Pajo, Henna Christine C.

Mr. Kenneth C. Ampolitod
Research Adviser
